PROFESSIONAL SUMMARY

Data Analyst / BI Developer with **3 years** of experience building **SQL-driven, DAX-powered dashboards** and reports across BFSI, Financial Services, Retail, Industrial IoT and BMS. Full BI lifecycle expertise — data extraction and validation, **ETL/ELT pipelines, data modeling** and dashboard development — using **Power BI, SQL, Python, Databricks (PySpark, Delta Lake), Snowflake** and **Looker Studio**, plus ERP data integration and strong **stakeholder** management. Delivered **25+** production Power BI dashboards for **500+** enterprise users, reducing data errors from **8%** to under **1%**. Open to remote Data Analyst, BI Developer and Data Engineer roles.

TECHNICAL SKILLS

Power BI & DAX: Power BI Desktop & Service, DAX, Power Query, Data Modeling, Star Schema, Row-Level Security (RLS), Reports & Dashboards, Phone & Tablet Layouts

Looker Studio: Built Google Sheets-connected dashboards via Python + SQL + InfluxDB data pipelines for real-time reporting

SQL: SQL — Joins, Subqueries, CTEs, Window Functions, Query Optimization — SQL Server, PostgreSQL, MySQL, Snowflake

Data Modeling & Warehousing: Star Schema Design, Data Warehousing, ETL/ELT, Data Governance, Data Validation, Medallion Architecture

Data Engineering: Databricks, PySpark, Delta Lake, Microsoft Fabric, Azure Data Factory (ADF), SSIS, REST APIs, n8n, Data Pipelines

Excel & Reporting: Advanced Excel (Pivot Tables, XLOOKUP, VLOOKUP, Macros), KPI Reporting, MIS Reporting, Ad-Hoc Reporting

Programming & Analytics: Python (Pandas, NumPy), Exploratory Data Analysis (EDA), Statistical Analysis, Trend Analysis

Domain & Tools: BFSI, Retail, Industrial IoT, BMS, ERP Data Integration | Tableau, Grafana, Metabase, Git, GitHub, Jupyter, VS Code, PyCharm

SOFT SKILLS

Analytical & Problem-Solving | Stakeholder Management | Business Communication | Data Storytelling | Attention to Detail | Mentoring | Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Data Analyst | Integrated Active Monitoring Pvt. Ltd.

Jan 2025 – Present

- Sole **Data Analyst** delivering **Power BI** reporting, dashboards and **data governance** for 3 enterprise client organizations.
- Developed and maintained **25+** production **Power BI** and **Grafana** dashboards using **DAX-based data modeling** and **RLS** for **500+** users across 15+ modules.
- Built a **Python + SQL + InfluxDB** pipeline feeding Google Sheets, then connected **Looker Studio** for real-time reporting.
- Reduced production data errors from **~8%** to under **1%** via **SQL** validation (joins, CTEs, window functions) and governance frameworks.
- Automated 5–7 daily MIS reports using **Python** and **n8n**, cutting turnaround from two days to **same-day**.
- Optimized **SQL** queries and built reusable **ETL** pipelines and dashboard templates, reducing ad-hoc turnaround by **~35%** and onboarding from days to hours.
- Partnered with stakeholders and engineering teams to gather requirements, define **KPIs** and mentor junior developers.

MIS Executive | Arthalay Financial Services

Feb 2024 – Dec 2024

- Built **Advanced Excel, Power Query** and **Power BI** dashboards tracking AUM, SIP inflows, portfolio performance and insurance renewals across **50+** client accounts.
- Reduced manual MIS effort by **40%** via dashboard automation; improved investment data accuracy by **~30%** through **SQL** and Excel **data validation** and reconciliation.
- Automated MIS workflows via Excel Macros (8–10 hours/week saved); **100%** on-time daily, weekly and monthly reports.

KEY PROJECTS

Medallion Lakehouse Pipeline — Databricks, PySpark, Delta Lake, SQL

- Built a **Bronze/Silver/Gold medallion** pipeline in **Databricks** using **PySpark** and **Delta Lake** to ingest, clean and transform raw data into analytics-ready tables (practice project).

Financial MIS Dashboard Suite — Power BI, SQL, Advanced Excel, Power Query, DAX

- Built interactive **Power BI** dashboards for AUM, SIP inflows and portfolio growth across **50+** accounts; **DAX** automated **KPI** calculations, cutting MIS effort by **40%**.

BMS Reporting Automation Platform — Python, SQL, PostgreSQL, REST APIs, n8n, Looker Studio

- Integrated systems via **REST APIs** and **PostgreSQL**; reusable **ETL** pipelines automated 5–7 daily reports, two days to **same-day**.

EDUCATION

Advanced Certification – Full Stack Data Science & AI | E&ICT Academy, IIT Guwahati

2023–2024

B.Tech | Shivaji University

2020–2023

CERTIFICATIONS & ACHIEVEMENTS

Microsoft PL-300: **Power BI** Data Analyst (In Progress) | Microsoft DP-900: Azure Data Fundamentals (In Progress) | **Snowflake** – DataCamp | Accenture Data Analytics & Visualization Job Simulation (Forage) | Employee of the Month – Integrated Active Monitoring Pvt. Ltd. (Nov 2025)
